<b>GD DAV Public School, Deoghar, Jharkhand</b> <i>Degree: SSC</i> <i>CGPA: 10/10</i>	2017

## PROJECTS

### TODO List, Contact List (*Skills: HTML, CSS, Javascript, Node.js, Express.js, MongoDB, Json*)

- Dynamic Frontend, through EJS templating engine, which is an NPM package.
- Backend built with Nodejs
- Database Used: MongoDB mongoose

### Movies Predictor (*Skills: HTML, CSS, Javascript, Python, jupyter Notebook*)

- This application provides all the details of the requested movie such as overview, genre, release date, rating, runtime, top cast, reviews, recommended movies, etc.
- The details of the movies (title, genre, runtime, rating, poster, etc) are fetched using an API by TMDB, <https://www.themoviedb.org/documentation/api>, and using the IMDB id of the movie in the API, we did web scraping to get the reviews given by the user in the IMDB site using BeautifulSoup4 and performed sentiment analysis on those reviews.

### Personal Portfolio (*Skills: HTML, CSS, Javascript*)

- Dynamic personal portfolio
- Messages received in Excel

### Music Player (*Skills: HTML, CSS*)

- Static front end web application

## TECH SKILLS

Programming:	Java, C++, Javascript
